PROFESSIONAL SUMMARY

Computer Science Engineering graduate with strong foundation in programming, web technologies, and database management. Proficient in Java, Python, SQL, and modern web frameworks, with knowledge of REST APIs and problem solving techniques. Quick learner with strong analytical and communication skills, adaptable to diverse technologies and team environments. Seeking an entry-level IT role to apply technical knowledge and contribute to organizational success.

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript, SQL
- **Web Technologies:** HTML, CSS, React JS
- **Tools & Platforms:** Salesforce, Git, Github
- **Database:** MySQL/ SQL, MongoDB
- **Other:** UI/UX Design, Debugging, Testing

PROJECTS

Smart E-Commerce Recommender System

MAR 2026

- Developed a full-stack e-commerce application using HTML, CSS, JavaScript (and React if used)
- Implemented user authentication, product listing, cart, and order management features
- Integrated REST APIs for dynamic data handling
- Designed responsive UI for improved user experience
- Managed database using MongoDB for product and user data

Advanced multimodal data fusion and predictive maintenance in next generation smart helmets

APR 2025

- Developed a data fusion system using Python to integrate IMU, environmental, and biometric sensor data
- Implemented machine learning models for predictive maintenance and anomaly detection
- Designed SQL-based database for real-time telemetry storage and feature extraction
- Improved early failure prediction accuracy through data-driven insights

Recipe Generator Chatbot

APR 2024

- Built an NLP-based chatbot using Python for dynamic recipe recommendations
- Designed and managed SQL database for recipes, ingredients, and user preferences
- Integrated backend logic and APIs for real-time query processing
- Enhanced user experience with personalized suggestions

INTERNSHIP

Salesforce administrator virtual internship (NOV 2023 - DEC 2023)

Gained hands-on experience in configuring and customizing Salesforce CRM, including user roles, profiles, and data models. Developed reports and dashboards for business insights and automated workflows using Flow and Process Builder to improve efficiency, while ensuring data accuracy and security.

EDUCATION

Sona College of Technology

B.E. CSE (2021-2025) - CGPA: 8.0/10

Malco Vidyalaya Matriculation Higher Secondary School

HSC (2019-2021) - 85%

Malco Vidyalaya Matriculation Higher Secondary School

SSLC(2018-2019) - 81%

CERTIFICATIONS & COURSES

- Java Full Stack Development - **Wipro TalentNext**
- Google Data Analytics - **Coursera**
- Python & C Programming Fundamentals - **Infosys Springboard**
- Java, React JS, Web designing, SQL, Python - **Besant Technologies**

ADDITIONAL INFORMATION

Languages known: English, Tamil, Kannada

Area of interest: Full-Stack and Software development, Database Management System, Front-end development, UI/UX designing

Activities: College event organizer, Member of english club, Attended inter college events and workshops, Throwball player, Classical dancer
